3. Q&A

Business Update Highlights - Q3 2023/24

- **Revenue growth from Q1 to Q3:** Q3 2023/24 reached DKK 142 million. Q3 2023/24 shows an increase in new orders, compared to previous quarters, although the outlook remains short-term, and the levels are still below expectation.
- **Improving gross margin:** Q3 reached 47.7%, an increase compared to Q1 (38.9%) and Q2 (45.6%), due to both realized product mix and an overall increase in revenue.
- **Positive EBITDA** at DKK 9 million in Q3, compared to DKK 1 million in Q2 and DKK -31 million in Q1, which is a combined result of increased revenue and cost cautiousness in capacity costs.
- **Outlook adjusted:** On 30 June 2024, RTX announced an adjusted outlook, due to postponed orders and lower demand, particularly in the ProAudio segment, but also for one of our major customers in the Enterprise segment. The updated outlook is:
 - Revenue DKK 500 to 510 million (from 580-630)
 - EBITDA DKK 0 to 10 million (from 45-60)
 - EBIT DKK -40 to -30 million (5-20)

Financial Update Highlights - Q3 & 9M 2023/24

Change in Inventory

Q3: ↓ **9** DKKm
9M: ↓ **11** DKKm

Inventory end of Q3 reached DKK 91 million (Q3 2022/23: DKK 122 million). The reduction in inventory is a result of revenue picking up and utilization of component inventory for products sold.

RTX is no longer sourcing components for production, as corporation with our production partners is normalizing.

Change in net liquidity position

Q3: ↑ **13** DKKm
9M: ↓ **37** DKKm

Positive development in the quarter on net liquidity position of DKK 13 million. This is a result of both positive EBITDA, a reduction of inventory and reduced working capital.

The development for the first 9 months is impacted positively by reduction in inventory and working capital and negatively by operational result and share buy back program.

Share Buy Back Program

Q3: **5.5** DKKm
9M: **17.5** DKKm

Share Buy Back program of DKK 20 million was announced on 30 November 2023. Up until the end of Q3, shares had been purchased for DKK 17.5 million.

Just prior to the publication of the Q3 & 9M 2023/24 report (22 august 2024) the share buy back program of DKK 20 million was concluded.

Inventory

Inventory decreased, and the supply chain is normalizing, where our production partners source the components for production. Further reductions in component inventory is expected.

Working capital

Reduction in working capital is related to the lower revenue level impacting both payables and receivables and the efforts to reduce component inventory.

Intangible assets / Non-current liabilities

The increase in intangible assets and non-current liabilities during the year is impacted by the investment in strategic collaboration with a large global Healthcare company regarding a new generation of wireless infrastructure for patient monitoring solutions.
